Getting to know you

Find a partner - present yourself by name and where you come from

Partner 1 has 90 seconds to tell Partner 2:

1. what they are doing right now
2. what changes/impacts they see through their work
3. what they would like to do next

When I say "CHANGE" partner 2 has 90 seconds to tell the same to partner 1

When I say "NEW" find a new partner and repeat the exercise

Poznávám vás

Najděte si partnera - prezentujte se jménem a odkud pocházíte

Partner 1 má 90 sekund na to, aby partnerovi 2 sdělil:

- Co dělají právě teď
- Jaké změny/dopady vidí ve své práci
- Co by chtěli dělat dál

Když řeknu "ZMĚNA", partner 2 má 90 sekund na to, aby to samé řekl partnerovi 1

Když řeknu "NOVÉ", najdu si nového partnera a cvičení opakují

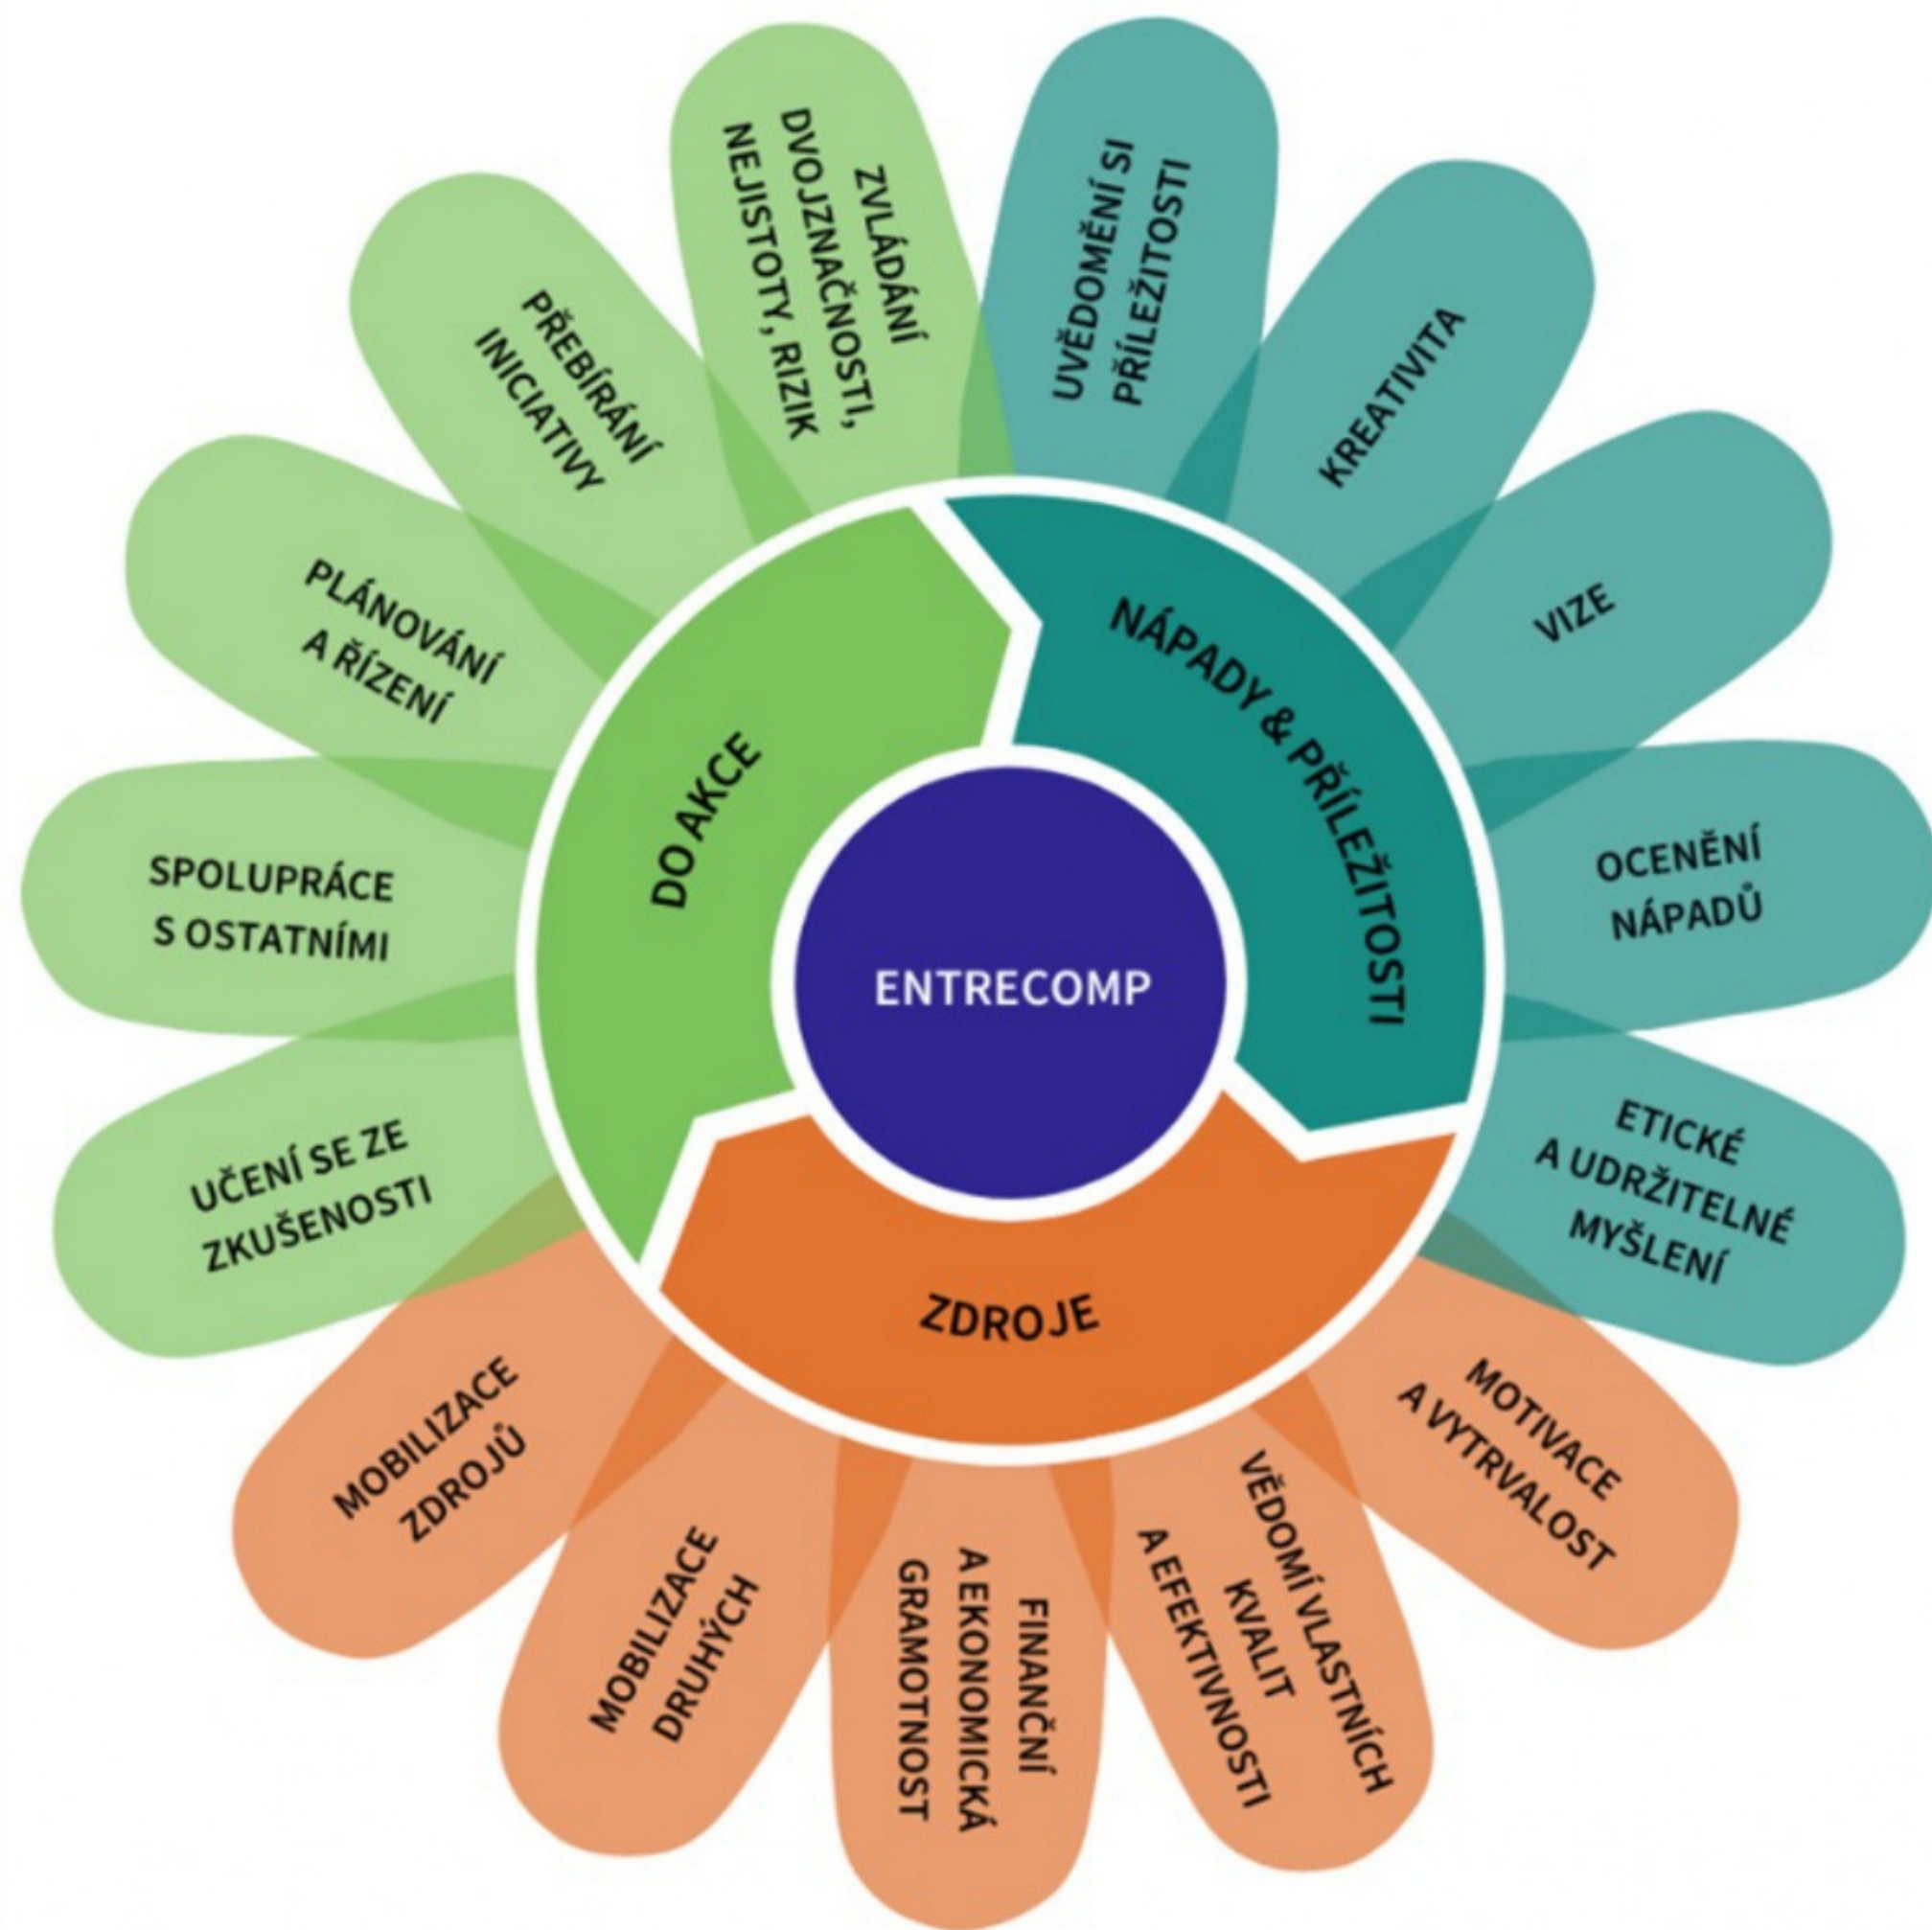

Entrepreneurship is when you **act** upon **opportunities** and **ideas** and transform them into **value** for others.

The value that is created can be **financial, cultural, or social.**

Podnikavost je, když **jednáte** na základě **příležitostí** a **nápadů** a transformujete je do **hodnoty** pro ostatní. Vytvořená hodnota může být **finanční, kulturní** nebo **sociální.**

IMPACT SNAPSHOT # 1

YOUTH@WORK 2022

Introduction

This impact snapshot aims at summarizing key quantitative and qualitative metrics of two successful events that have taken place in 2022. Based on the trainers' event reports and the pre and post event surveys, mapped against the revised logic model of 2022, it will give a brief overview of the outcomes of the events, focusing on three key areas of work of the Youth@Work partnership:

- Youth work
- Digital and green transition
- Entrepreneurship

These areas are also embedded into the three EU frameworks: **EntreComp**, **DigComp** and **GreenComp**, and were a central topic of discussion during the two events, and are important learning points for participants.

The events

The first event featured in this impact snapshot is the event **Youth@Work "Digital Green Innovation" Conference** held in at Nicosia, Cyprus in May 2022. 29 representatives attended the conference, from different countries and sectors across Europe.

The second event was held in Durres, Albania in June 2022: **"From youth work to Youth@Work: The potential of youth work to boost young people's employability and entrepreneurship"**. A total of 25 representatives from various sectors from the Erasmus+ Programme Countries and Western Balkan Partner Countries participated in this seminar.

Thanks to the post-event survey completed by the participants at the end of the event, the trainers were able to identify who were the participants, their motivations and their level of satisfaction. By understanding their audience, trainers and coordinators will be able to shape future events and get inspired to offer even more relevant activities and opportunities.

This word cloud illustrates the main objectives of the two events. Let's take a closer look at each event and their impact, as well as how they contributed to the Youth@Work partnership objectives and priorities.

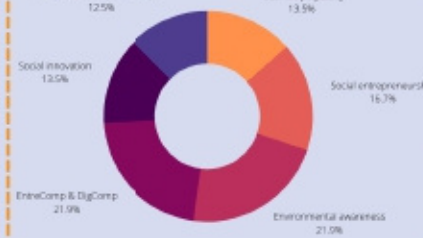

Digital Green Innovation Conference

The conference

Youth@Work "Digital Green Innovation" Conference was held in Cyprus and supported by the Erasmus+ National Agency of Cyprus. Due to the Covid-19 pandemic, the conference was postponed to the 3rd to 5th of May 2022 and was realized as a residential activity. The conference aimed at exploring the employability and entrepreneurship opportunities in the digital and green sectors and thus create a cross-sectoral network of professionals. The activities and workshops provided a look into the future technological developments, skills and knowledge needed in the green and digital labour market.

Youth@Work priorities addressed

The conference was designed with the following objectives into mind:

- Explore the employability and entrepreneurship opportunities in the digital and green sectors, the environmental footprint of the digitization process and enhance the cross-sectoral collaboration
- Create space for exchange for digital innovators and green entrepreneurs to network
- Discuss and share possible policy interventions for stimulating green digital innovation and adapting innovation, employment and educational policies

On the left, you will find the participants' perspective on the topics and challenges tackled during the seminar, presented across the Youth@Work priorities.

Outcomes

The participants expressed a general high satisfaction for what they have gained from this conference, namely motivation and new ideas, cross-sectoral knowledge, new tools and methods as well as new area of expertise. The training, learning and networking opportunities offered met the expectations and the motivation of the participants in taking part in the conference.

When the outcomes of the event are analysed, they appear to directly contribute to the broader outcomes of Youth@Work actions:

Increased development of cross-sectoral collaboration on youth employability and entrepreneurship as a result of participation in Youth@Work actions

- By gathering people and organisations from different sectors, youthworkers, digital innovators and green entrepreneurs, participants were able to foster new partnerships, and the trainers highlighted the need of a community of green youth workers to be encouraged and coordinated.

Increased awareness of the Youth@Work partnership among national and European level policy-makers

- The activities and topics addressed helped the participants in influencing policy at the national level (27.6%), the diversity in the audience and the speakers contributed to discuss possible policy impact. Such discussions and findings will be highlighted more extensively in the upcoming reports.

From Youth Work to Youth@Work: The potential of youth work to boost young people's employability and entrepreneurship

The seminar

The three-day seminar "From youth work to Youth@Work: The potential of youth work to boost young people's employability and entrepreneurship" was held in Diamma Resort in Durres, Albania from 12th to 16th June 2022. The activity explored the potential of youth work to create a positive change as a part of the youth employability and entrepreneurship ecosystem. The seminar was part of Youth@Work transnational strategic cooperation between the Erasmus+ and European Solidarity Corps National Agencies and SALTO SEE in youth employability and entrepreneurship.

Youth@Work priorities addressed

The seminar was designed with the following objectives into mind:

- To explore relevant concepts and frameworks connected to the topic, in particular **EntreComp**
- To discover the potential and unravel the dilemmas of youth employability and entrepreneurship
- To exchange good practices of youth work
- To provide space for networking among stakeholders from different countries

On the left, you will find the participants' perspective on the topics and challenges tackled during the seminar, presented across the Youth@Work priorities.

Outcomes

The seminar provided a space for sharing and exchanging, time for networking, as well as learning, personal and social development opportunities therefore meeting the expectations of the participants. The Youth@Work priorities were well represented and addressed across the various activities during the three days.

When the outcomes of the event are analysed, they appear to directly contribute to the broader outcomes of Youth@Work actions:

More access to high quality events focused on developing employability and entrepreneurship in youthwork

- The diversity of participants and the location of the seminar allowed the organiser to reach new audiences, from different background and expertise. Most of the participants were taking part in a Youth@Work event for the first time (73.1%).

Improved networks for those interested in or involved in developing employability and entrepreneurship through youthwork as a result of participation in Youth@Work actions.

- While participants have gained motivation and new ideas, they also have enlarged their network and had the opportunity to connect with people and organisations from different countries.

Increased learning on youth employability and entrepreneurship as a result of participation in Youth@Work actions

- The seminar not only provided visibility and enhanced the role of the youth work in youth employability and entrepreneurship ecosystem, it also provided a great learning experience for the participants, especially around **EntreComp**, a framework still unknown across the region.

SUSTAINABLE DEVELOPMENT GOALS

17 GOALS TO TRANSFORM OUR WORLD

Why?

The story of creating value

What... ?

What work are you doing?

So what...?

What value is your practice creating?
What unexpected value is there?

Now what...?

How are you sharing that value?
How are you making it valued?

Co...?

Jakou práci děláte?

No a co...?

Jakou hodnotu vytváří vaše praxe?
Jaká je tam neočekávaná hodnota?

Co teď...?

Jak tuto hodnotu sdílíte?
Jak si ho ceníte?

Checklist for impact:

- **Make it shared** - *make it co-designed so there is common understanding across all those involved*
- **Make it relevant** – *make it relevant and meaningful to different audiences*
- **Make it engaging** – *represent your impact in different ways – visual, audio*
- **Make it valued** – *make it about ALL the value created through your work – make others value that value*
- **Make it system level** – *make recommendations to show the changes needed at system level*
- **Make it forward-looking** – *now what?*
- **MAKE IT LOUD!**
